LANKANFUSHI ISLAND  
THE MALDIVES

Date- 24<sup>th</sup> March, 2011

**To Whom It May Concern**

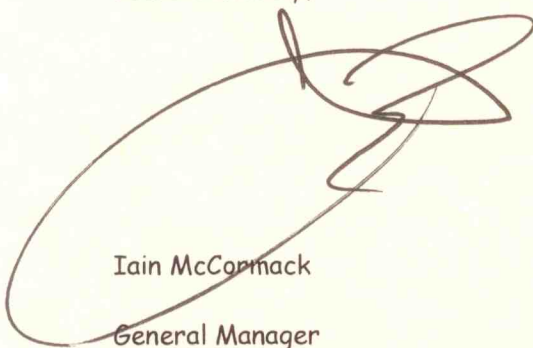

This letter is my personal recommendation for Ms Trudy Rilling-Collins who was contracted for a 6 week period at Soneva Gili as Mosquito Control Consultant.

Prior to Trudy's arriving, we were faced with daily mosquito infestation, which resulted in guest and staff complaints. We have been fogging and spraying chemicals on the Island for years in order to try and control this challenging situation.

During my days of working with Trudy, I was truly amazed by her commitment, dedication, energy and high level of responsibility. She is very determined, enthusiastic and extremely knowledgeable in this field. Trudy set up a detailed training seminar for our hosts to understand the importance and significance of this program. The results of Trudy's work was most positive and enabled us to eliminate fogging and spraying toxic chemicals, providing a much safer and healthier environment and more importantly greatly reduced our Mosquito population dramatically.

I highly recommend Trudy and sincerely wish her the best of successes in all her future endeavors.

Yours Sincerely,

Iain McCormack  
General Manager
