TO WHOM IT MAY CONCERN

Since implementation of "Environmentally Responsible Mosquito Control", five plus years ago; Reethi Beach Resort has saved over \$120,000 in pesticide costs!

Trudy Rilling-Collins of *Mosquito Lady Consulting* first worked with our staff at Reethi Beach Resort in late September of 2012, to implement an environmentally friendly mosquito control project which has been impressively successful.

The mosquito control program quickly allowed us to stop the fogging of the resort that had been done since opening 15 years prior. Even during the challenging period of SW Monsoon, we have been able to achieve excellent mosquito control at Reethi Beach Resort!

The cost savings are substantial, earlier roughly \$2,000 a month was spent on pesticides for fogging mosquitoes. More than the savings, it has also provided for a far better guest experience, eliminating the unpleasant experience of walking through pesticide fog and the associated loud noise. Guests for the first time started commenting on the absence of mosquitoes at the resort.

The mosquito control program has obviously also resulted in a healthier environment for the staff at Reethi Beach and the protection of marine fish and coral reefs surrounding the resort through a reduction in pesticide run off.

In conclusion, I would highly recommend Mosquito Lady Consulting. Trudy's passion for her work and professionalism are apparent in the quality of the mosquito control programs she implements. Please feel free to contact me should you have any questions about the mosquito control program implemented at Reethi Beach Resort, 7776560, peter@reethibeach.com.

Sincerely, Peter

Peter Gremes
