To Trudy Rilling-Collins - Mosquito Lady Consulting

Dearest Trudy,

Since we started our cooperation, yourself and your team members have shown an exceptional focus and dedication.

I wanted to share with you that we noticed 6 weeks after the beginning of your intervention, a drastic drop in the mosquito presence throughout the Resort and most of all the return of the endemic fauna and insects; birds, dragonflies, butterflies, bees have come back to our ground due to the absence of usage of toxic fogging, it is a daily pleasure for our guests and our teams.

I would like to thank your team and yourself for your amazing and tedious work that has proven tremendous results.

Warm regards,

M. Theo Granet  
General Manager  
CHAPUNG SEBALI
